

AUSTRALIA · NEW ZEALAND · PACIFIC

Volume supply for network builds, rollouts and **tenders.**

Fibre, optics and data racks made to your specification and delivered to site across Australia, New Zealand and the Pacific.

Fibre

Optics

Data racks

Outdoor cabinets

Project supply for Australia, New Zealand and the Pacific.

SMIC supplies the physical layer of network builds: fibre, optics and data racks, made to order in volume for projects and tenders, with popular lines held in stock for smaller jobs.

500+

product lines across fibre, optics, racks and network hardware

10–100_G

SMIC optical transceivers, SFP+ to QSFP28

2–288

fibre counts in our cable range, from drop to ADSS

AU • NZ

and the Pacific, from our sales team in Toowong, Brisbane

Who we supply

Carriers and ISPs

Backbone and access fibre, optics and rack infrastructure for network rollouts.

Contractors

Cable, enclosures, closures and fittings supplied to the job, ready to install.

Builders and developers

FTTH distribution, wall outlets and comms cabinets for apartment and MDU projects.

Data centres

Server racks, patch panels, MPO trunks and PDUs for fit-outs and expansions.

Two ways to buy

PROJECTS AND TENDERS

Made to order, in volume

Priced from your tender or bill of materials. Samples first, minimum order quantities, and freight arranged to site with staged deliveries across a rollout.

IN STOCK

Straight from stock

Selected fibre, optics and racks held in Queensland for smaller orders and top-ups. Trade customers sign in at smic.co to see pricing and order online.

Made to spec.
Delivered to site.

From tender to delivery.

Send us the job and we come back with pricing, lead times and a sample plan. You sign off samples before the production run starts.

01**Send the tender or BOM**

Drawings, schedules or a bill of materials. Include quantities, delivery locations and the dates you need to hit.

02**Pricing and samples**

We quote the project and send samples so you can test them on your network before committing to volume.

03**Made to your spec**

Production runs to the signed-off sample, SMIC-branded, with your lengths, colours, labelling and packing.

04**Delivered to site**

Freight arranged to your site or yard anywhere in Australia, New Zealand and the Pacific, in one drop or staged to match the rollout.

Made to your specification

Custom lengths

Cable cut to length; patch leads and pigtailed terminated to order.

Colours and finishes

Cabinet colours and jacket colours to match your standards.

SMIC labelling

SMIC-branded products, with part numbers and labelling for your records.

Packing and kitting

Packed per site or per build stage, so crews get what they need.

Sizes and configurations

Rack heights and depths, port counts and splitter ratios to suit.

Staged delivery

Deliveries scheduled across a rollout rather than all at once.

Tenders and projects

Send the bill of materials to brisbane@smic.co. We come back with pricing, lead times and a sample plan.

Stock orders

Smaller orders and top-ups from stock. Trade customers sign in at smic.co for pricing. Free delivery on in-stock orders over \$100.

Fibre and optics.

The passive network from the exchange to the premises, and the optics that light it.

01

Fibre

Cable, enclosures, closures and connectivity for FTTH, backbone and in-building builds.

Outdoor cable

ADSS

Drop cable

FTTH boxes

Splice closures

Patch panels

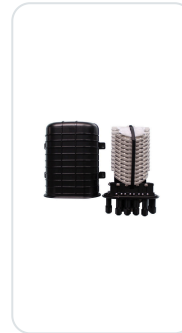

Patch leads

PLC splitters

MPO

Cable fittings

Street cabinets

- Armoured, duct and direct-burial cable
- ADSS aerial cable up to 288 fibres
- Figure-8 and flat drop cable
- FTTH distribution boxes, 2 to 72 port

- Dome and in-line splice closures, up to 480 fibres
- Rack patch panels and distribution frames
- Patch leads, pigtails, MPO trunks and PLC splitters
- Anchor and suspension clamps, pole brackets and tools

02

Optics

SMIC-labelled optical transceivers for access, aggregation and data-centre links.

SFP+

SFP28

QSFP+

QSFP28

BiDi

XG-PON

- 10G to 100G: SFP+, SFP28, QSFP+ and QSFP28
- Single-mode and BiDi variants

- XG-PON ONU SFP+ modules
- Supplied in volume for ongoing rollouts

03

Data racks and cabinets

SMIC's own range of server racks, wall cabinets and outdoor enclosures, built to order in your sizes and colours.

Floor-standing

Wall-mount

Open racks

Outdoor IP55-IP66

Battery cabinets

PDUs

Accessories
